Okay as of 6:25pm 10/01/2011 AEDST time (Australian Eastern Daylight Savings Time! GMT+11) this page is work-in-progress.

Creating everything on a linux virtual machine, running Linux Mint, and will try to avoid command line as much as possible.

Download file is orx-dev-linux-1.2.tar.bz2 (orx-dev-linux-*)

project root directory will be: ~/MyProject/

grab /bin/, /include/ and /lib/ from inside archive (under <archive>/orx-1.2/dev-linux/)
