

Move an Object with Position FX

Code

```
orxObject_CreateFromConfig("Object");
```

Config

```
[Object]
Graphic      = Graphic
FXList       = PositionFX

[Graphic]
Texture      = mushroom.png
Pivot        = center

[PositionFX]
SlotList     = PositionFXSlot
Loop         = true

[PositionFXSlot]
Type         = position
StartTime    = 0
EndTime      = 2
Curve        = sine
StartValue   = (0,0,0)
EndValue     = (200,0,0)
Absolute     = false
```
