

# Moving an object onto the mouse position

## Code

```
orxVECTOR mousePosition = orxVECTOR_0;  
  
orxMouse_GetPosition(&mousePosition);  
orxRender_GetWorldPosition(&mousePosition, orxNULL, &mousePosition);  
  
mousePosition.fZ = 0;  
  
orxObject_SetPosition(someObject, &mousePosition);
```
