Part 6 – Objects

Sprites in Orx are called Objects. These are the heart of games in Orx.

Our platform game is going to need a hero. Let's replace the default object in our game with a hero object.

We will need a graphic image for the hero. There's one available over in the Orx project in object assets folder: `orx/tutorial/data/object`. Look for `soldier.png`:

Copy this file into your `MyGame/data/texture` folder.

Next, we need to create a graphic in the `MyGame.ini` config that knows about the soldier.png image:

```
[HeroGraphic]
Texture         = soldier.png
```

Next, let's create an actual object that will use the HeroGraphic:

```
[HeroObject]
Graphic  = HeroGraphic
Position = (-350, 100, 0)
Scale    = 2
```

When a HeroObject is created in code, he will be placed at co-ordinates -350, 100 on the screen (from the center) and scaled up 2x in size.

In the Init() function, replace the `orxObject_CreateFromConfig("Scene");` with our:

```
orxObject_CreateFromConfig("HeroObject");
```

Compile and run. You should get the following:
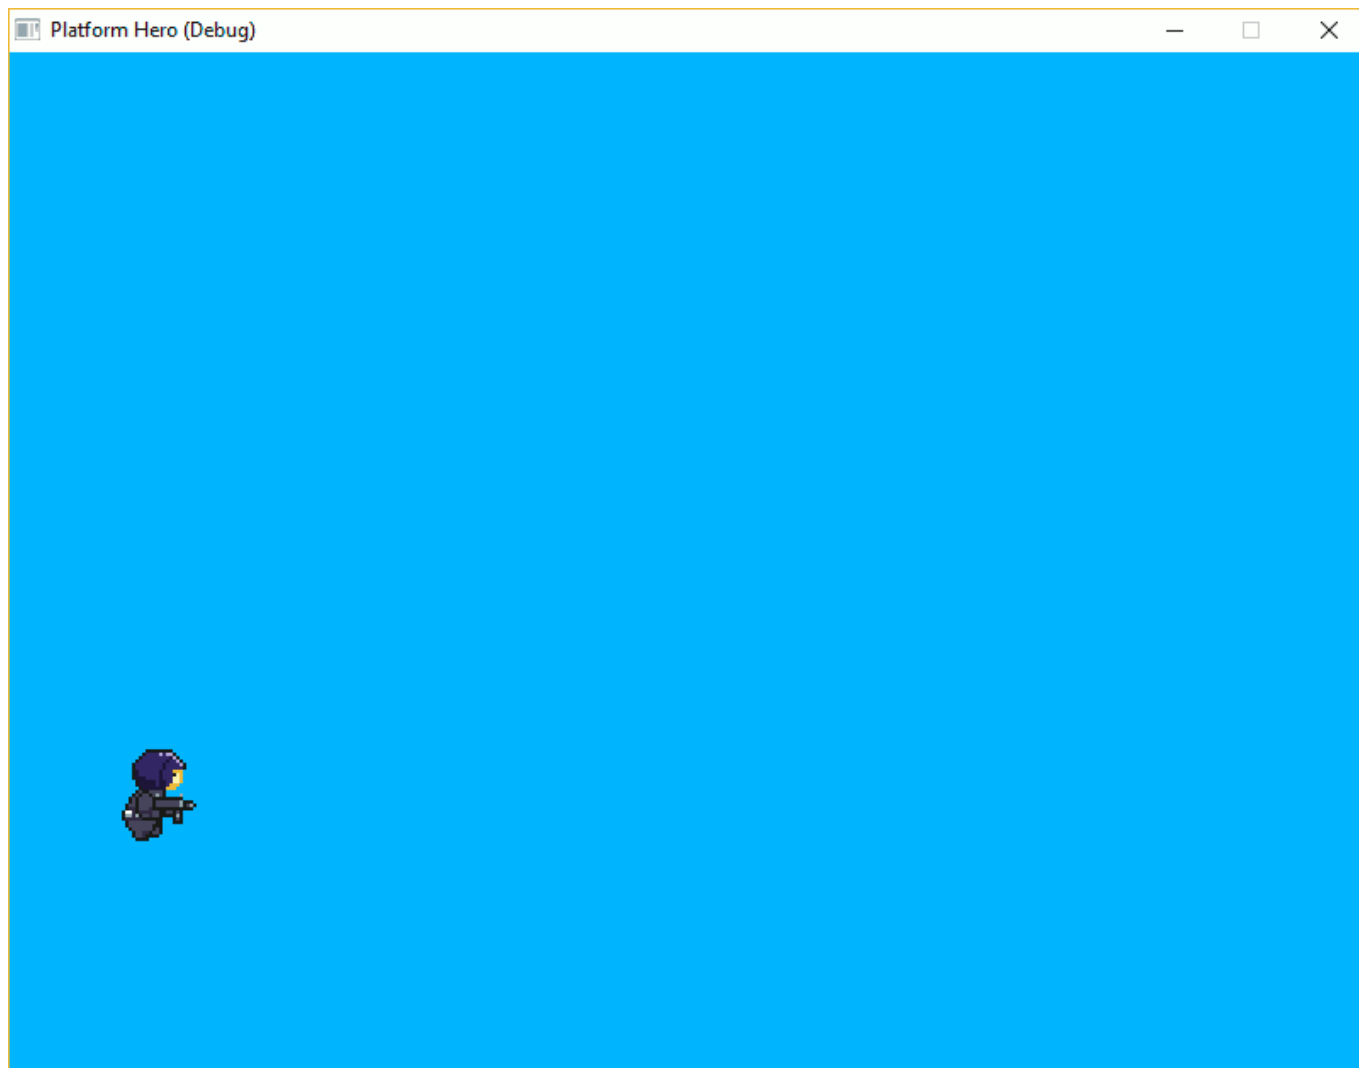

So that's great! Now you might be wondering, how does `HeroGraphic` know how to get `solder.png` from the data/texture folder? The answer is in the `[Resource]` section:

```
[Resource]
Texture = ../data/texture
```

We can specify multiple paths here and we will do so further down the track.

So good job! Next step is to animate our soldier.

Next: Part 7 – Spritesheets and Animation.

- Part 1 – Downloading Orx
- Part 2 – How Orx works
- Part 3 – Setting up a new game project
- Part 4 – A tour of an Orx project
- Part 5 – Viewport and the camera
- Part 6 – Objects
- Part 7 – Spritesheets and Animation

- Part 8 – Platforms and Texture Repeating
- Part 9 – Physics
- Part 10 – Input Controls
- Part 11 – Running and Standing
- Part 12 – Changing Direction
- Part 13 – Getting our hero to shoot
- Part 14 – FX
- Part 15 – Collision Events.
- Part 16 – Jelly Monsters
- Part 17 – Timeline Tracks
- Part 18 – Exploding Monsters
- Part 19 – The Hero's survival.
- Part 20 – Text and Game Over
